## ALTO REGULAR STOCKED MUFFLERS TERMS AND CONDITIONS

Some of the above listed ALTO mufflers are available only as a cut and install option. OEM muffler may be required. To receive the latest and most accurate information on available designs, please contact a Nett Technologies' representative. The above items are not reflective of newly added designs - if you don't see your particular product, please contact Nett Technologies. Certain terms and conditions apply. Some items are considered OEM and Nett Technologies reserves the right to sell these products.

# ALTO, Ariens, ASV, Atlas and Ausa standard and catalytic after-market mufflers

Located in the Greater Toronto Area, Nett Technologies Inc. is an innovative emissions control company that specializes in the design, development and manufacturing of proprietary and non-proprietary **ALTO, Ariens, ASV, Atlas and Ausa** emission control solutions using the latest in 3-Way and Diesel Oxidation Catalyst (DOC) technologies. Sold and supported globally, Nett Technologies Inc., uses the best of materials, innovative product design and quality workmanship to manufacturer its products. We are the industry leader and an innovator of direct-fit emission control solutions for **ALTO, Ariens, ASV, Atlas and Ausa** equipment. Our **ALTO, Ariens, ASV, Atlas and Ausa** direct-fit mufflers replaces the OEM mufflers while retaining the same envelope size. Additionally, our **ALTO, Ariens, ASV, Atlas and Ausa** after-market mufflers keep key engine performance attributes like sound attenuation and back pressure characteristics. Discover today the many ways Nett Technologies Inc. can help you and your organization with all your **ALTO, Ariens, ASV, Atlas and Ausa** emission control needs.

## EAGLE TUGS, EARTHFORCE, EASTERN, EDCO, ENGELHARD AND FIAT REGULAR STOCKED MUFFLERS TERMS AND CONDITIONS

Some of the above listed Eagle Tugs, EarthForce, Eastern, Edco, Engelhard and Fiat mufflers are available only as a cut and install option. OEM muffler may be required. To receive the latest and most accurate information on available designs, please contact a Nett Technologies' representative. The above items are not reflective of newly added designs - if you don't see your particular product, please contact Nett Technologies. Certain terms and conditions apply. Some items are considered OEM and Nett Technologies reserves the right to sell these products.

# Furukawa and Gehl standard and catalytic after-market mufflers

Located in the Greater Toronto Area, Nett Technologies Inc. is an innovative emissions control company that specializes in the design, development and manufacturing of proprietary and non-proprietary **Furukawa and Gehl** emission control solutions using the latest in 3-Way and Diesel Oxidation Catalyst (DOC) technologies. Sold and supported globally, Nett Technologies Inc., uses the best of materials, innovative product design and quality workmanship to manufacturer its products. We are the industry leader and an innovator of direct-fit emission control solutions for **Furukawa and Gehl** equipment. Our **Furukawa and Gehl** direct-fit mufflers replaces the OEM mufflers while retaining the same envelope size. Additionally, our **Furukawa and Gehl** after-market mufflers keep key engine performance attributes like sound attenuation and back pressure characteristics. Discover today the many ways Nett Technologies Inc. can help you and your organization with all your **Furukawa and Gehl** emission control needs.

## Hamm Mufflers

Hamm	S410SD	Deutz	70-90hp	00775843
Hamm	N/A	Deutz	BF4M-2011	01489046

All mufflers are available in catalytic and standard (non-catalytic) versions.

Looking for more information on Halla and Hamm mufflers? Contact us today at (800) 361-6388 or visit us online at [www.nettinc.com](http://www.nettinc.com)

## HALLA AND HAMM REGULAR STOCKED MUFFLERS TERMS AND CONDITIONS

Some of the above listed Halla and Hamm mufflers are available only as a cut and install option. OEM muffler may be required. To receive the latest and most accurate information on available designs, please contact a Nett Technologies' representative. The above items are not reflective of newly added designs - if you don't see your particular product, please contact Nett Technologies. Certain terms and conditions apply. Some items are considered OEM and Nett Technologies reserves the right to sell these products.

# Hangcha, Hanix, Harlan, Hatz, Haulotte and Hayter standard and catalytic after-market mufflers

Located in the Greater Toronto Area, Nett Technologies Inc. is an innovative emissions control company that specializes in the design, development and manufacturing of proprietary and non-proprietary **Hangcha, Hanix, Harlan, Hatz, Haulotte and Hayter** emission control solutions using the latest in 3-Way and Diesel Oxidation Catalyst (DOC) technologies. Sold and supported globally, Nett Technologies Inc., uses the best of materials, innovative product design and quality workmanship to manufacturer its products. We are the industry leader and an innovator of direct-fit emission control solutions for **Hangcha, Hanix, Harlan, Hatz, Haulotte and Hayter** equipment. Our **Hangcha, Hanix, Harlan, Hatz, Haulotte and Hayter** direct-fit mufflers replaces the OEM mufflers while retaining the same envelope size. Additionally, our **Hangcha, Hanix, Harlan, Hatz, Haulotte and Hayter** after-market mufflers keep key engine performance attributes like sound attenuation and back pressure characteristics. Discover today the many ways Nett Technologies Inc. can help you and your organization with all your **Hangcha, Hanix, Harlan, Hatz, Haulotte and Hayter** emission control needs.

## ABI, AC CHALMER AND ADVANCE REGULAR STOCKED MUFFLERS TERMS AND CONDITIONS

Some of the above listed IHI and Ingersoll mufflers are available only as a cut and install option. OEM muffler may be required. To receive the latest and most accurate information on available designs, please contact a Nett Technologies' representative. The above items are not reflective of newly added designs - if you don't see your particular product, please contact Nett Technologies. Certain terms and conditions apply. Some items are considered OEM and Nett Technologies reserves the right to sell these products.

# International Harvester and Ishikawajima standard and catalytic after-market mufflers

Located in the Greater Toronto Area, Nett Technologies Inc. is an innovative emissions control company that specializes in the design, development and manufacturing of proprietary and non-proprietary **International Harvester and Ishikawajima** emission control solutions using the latest in 3-Way and Diesel Oxidation Catalyst (DOC) technologies. Sold and supported globally, Nett Technologies Inc., uses the best of materials, innovative product design and quality workmanship to manufacturer its products. We are the industry leader and an innovator of direct-fit emission control solutions for **International Harvester and Ishikawajima** equipment. Our **International Harvester and Ishikawajima** direct-fit mufflers replaces the OEM mufflers while retaining the same envelope size. Additionally, our **International Harvester and Ishikawajima** after-market mufflers keep key engine performance attributes like sound attenuation and back pressure characteristics. Discover today the many ways Nett Technologies Inc. can help you and your organization with all your **International Harvester and Ishikawajima** emission control needs.

## KOBELCO REGULAR STOCKED MUFFLERS TERMS AND CONDITIONS

Some of the above listed Kobelco mufflers are available only as a cut and install option. OEM muffler may be required. To receive the latest and most accurate information on available designs, please contact a Nett Technologies' representative. The above items are not reflective of newly added designs - if you don't see your particular product, please contact Nett Technologies. Certain terms and conditions apply. Some items are considered OEM and Nett Technologies reserves the right to sell these products.

# Kohler, Soffcut, Komatsu and Sany standard and catalytic after-market mufflers

Located in the Greater Toronto Area, Nett Technologies Inc. is an innovative emissions control company that specializes in the design, development and manufacturing of proprietary and non-proprietary **Kohler, Soffcut, Komatsu and Sany** emission control solutions using the latest in 3-Way and Diesel Oxidation Catalyst (DOC) technologies. Sold and supported globally, Nett Technologies Inc., uses the best of materials, innovative product design and quality workmanship to manufacturer its products. We are the industry leader and an innovator of direct-fit emission control solutions for **Kohler, Soffcut, Komatsu and Sany** equipment. Our **Kohler, Soffcut, Komatsu and Sany** direct-fit mufflers replaces the OEM mufflers while retaining the same envelope size. Additionally, our **Kohler, Soffcut, Komatsu and Sany** after-market mufflers keep key engine performance attributes like sound attenuation and back pressure characteristics. Discover today the many ways Nett Technologies Inc. can help you and your organization with all your **Kohler, Soffcut, Komatsu and Sany** emission control needs.

Sold and supported globally, Nett Technologies Inc., uses the best of materials, innovative product design and quality workmanship to manufacturer its products. We are the industry leader and an innovator of direct-fit emission control solutions for **MacLean and Manitou** equipment. Our **MacLean and Manitou** direct-fit mufflers replaces the OEM mufflers while retaining the same envelope size. Additionally, our **MacLean and Manitou** after-market mufflers keep key engine performance attributes like sound attenuation and back pressure characteristics. Discover today the many ways Nett Technologies Inc. can help you and your organization with all your **MacLean and Manitou** emission control needs.

## MTI REGULAR STOCKED MUFFLERS TERMS AND CONDITIONS

Some of the above listed MTI mufflers are available only as a cut and install option. OEM muffler may be required. To receive the latest and most accurate information on available designs, please contact a Nett Technologies' representative. The above items are not reflective of newly added designs - if you don't see your particular product, please contact Nett Technologies. Certain terms and conditions apply. Some items are considered OEM and Nett Technologies reserves the right to sell these products.

# MTI standard and catalytic after-market mufflers

Located in the Greater Toronto Area, Nett Technologies Inc. is an innovative emissions control company that specializes in the design, development and manufacturing of proprietary and non-proprietary **MTI** emission control solutions using the latest in 3-Way and Diesel Oxidation Catalyst (DOC) technologies. Sold and supported globally, Nett Technologies Inc., uses the best of materials, innovative product design and quality workmanship to manufacturer its products. We are the industry leader and an innovator of direct-fit emission control solutions for **MTI** equipment. Our **MTI** direct-fit mufflers replaces the OEM mufflers while retaining the same envelope size. Additionally, our **MTI** after-market mufflers keep key engine performance attributes like sound attenuation and back pressure characteristics. Discover today the many ways Nett Technologies Inc. can help you and your organization with all your **MTI** emission control needs.

## TAKEUCHI REGULAR STOCKED MUFFLERS TERMS AND CONDITIONS

Some of the above listed Takeuchi mufflers are available only as a cut and install option. OEM muffler may be required. To receive the latest and most accurate information on available designs, please contact a Nett Technologies' representative. The above items are not reflective of newly added designs - if you don't see your particular product, please contact Nett Technologies. Certain terms and conditions apply. Some items are considered OEM and Nett Technologies reserves the right to sell these products.

# Target, Taylor and Taylor Machine Works standard and catalytic after-market mufflers

Located in the Greater Toronto Area, Nett Technologies Inc. is an innovative emissions control company that specializes in the design, development and manufacturing of proprietary and non-proprietary **Target, Taylor and Taylor Machine Works** emission control solutions using the latest in 3-Way and Diesel Oxidation Catalyst (DOC) technologies. Sold and supported globally, Nett Technologies Inc., uses the best of materials, innovative product design and quality workmanship to manufacturer its products. We are the industry leader and an innovator of direct-fit emission control solutions for **Target, Taylor and Taylor Machine Works** equipment. Our **Target, Taylor and Taylor Machine Works** direct-fit mufflers replaces the OEM mufflers while retaining the same envelope size. Additionally, our **Target, Taylor and Taylor Machine Works** after-market mufflers keep key engine performance attributes like sound attenuation and back pressure characteristics. Discover today the many ways Nett Technologies Inc. can help you and your organization with all your **Target, Taylor and Taylor Machine Works** emission control needs.

### THWAITES, TOG, TORO, TOVEL, TRACKS AND WHEELS, TREMIX AND TUG REGULAR STOCKED MUFFLERS TERMS AND CONDITIONS

Some of the above listed Thwaites, TOG, Toro, Tovel, Tracks and Wheels, Tremix and TUG mufflers are available only as a cut and install option. OEM muffler may be required. To receive the latest and most accurate information on available designs, please contact a Nett Technologies' representative. The above items are not reflective of newly added designs - if you don't see your particular product, please contact Nett Technologies. Certain terms and conditions apply. Some items are considered OEM and Nett Technologies reserves the right to sell these products.

# Tusk, United Tractor, Universal, Upright and Vallee standard and catalytic after-market mufflers

Located in the Greater Toronto Area, Nett Technologies Inc. is an innovative emissions control company that specializes in the design, development and manufacturing of proprietary and non-proprietary **Tusk, United Tractor, Universal, Upright, Vallee and Veermeer** emission control solutions using the latest in 3-Way and Diesel Oxidation Catalyst (DOC) technologies. Sold and supported globally, Nett Technologies Inc., uses the best of materials, innovative product design and quality workmanship to manufacturer its products. We are the industry leader and an innovator of direct-fit emission control solutions for **Tusk, United Tractor, Universal, Upright, Vallee and Veermeer** equipment. Our **Tusk, United Tractor, Universal, Upright, Vallee and Veermeer** direct-fit mufflers replaces the OEM mufflers while retaining the same envelope size. Additionally, our **Tusk, United Tractor, Universal, Upright, Vallee and Veermeer** after-market mufflers keep key engine performance attributes like sound attenuation and back pressure characteristics. Discover today the many ways Nett Technologies Inc. can help you and your organization with all your **Tusk, United Tractor, Universal, Upright, Vallee and Veermeer** emission control needs.
