Briggs & Stratton small engine emission control just got easier!

Nett Technologies manufactures and distributes the BlueCAT™ SSI emission control systems for all small engine brands including Briggs & Stratton Small Spark Ignited (SSI) engines. Using the same technology which has been verified and proven by California Air Resources Board (CARB) in 1000's of installations on Large Spark Ignited (LSI) engines to reduce harmful engine emissions, the BlueCAT™ SSI has been customized to suit small engine applications. Reducing Carbon Monoxide (CO) by up to 98%, Oxides of Nitrogen (NOx) and Hydrocarbons (HC) by up to 95%, the BlueCAT™ SSI emission control system is designed to operate on Briggs & Stratton small gasoline and gaseous (LPG & CNG) fueled SSI engines. Great at reducing harmful emissions, the BlueCAT™ SSI system is ideal for use in household and commercial applications, including lawn and garden equipment, utility vehicles, generators, and variety of other construction, farm, and industrial equipment.

Affordable and easy to install, the BlueCAT™ SSI is a direct-fit replacement for Briggs & Stratton small engine mufflers. The emission control catalyst is built into the BlueCAT™ SSI muffler to match the same OEM envelope for size, sound attenuation, back pressure characteristics with addition of superior emissions performance. Direct-fit designs are available for most Briggs & Stratton engines with customized designs available upon request.

The BlueCAT™ SSI is compatible with an A/F controller (optional) to maximize the emission reduction in gaseous (LPG & CNG) fueled engines.

Using field tested CARB verified technology for LSI, the BlueCAT™ SSI engine three-way catalyst is the perfect emission control solution to your Briggs & Stratton small engine.

Affordable and easy to install the BlueCAT™ SSI is a direct-fit replacement for Briggs & Stratton small engine mufflers. The emission control catalyst is built into the muffler and its size is carefully selected for its performance and ability to fit the OEM envelope of the Briggs & Stratton small engine.

BlueCAT™ SSI is available for the following Briggs & Stratton small engine models. Custom designs available upon request.

Vanguard 6.5

Vanguard 16

Vanguard 810cc V-Twin Vertical

Vanguard 8

Vanguard 18

Vanguard Big Block V-Twin 35hp

Vanguard 10

Vanguard 21

Vanguard Commercial Series V-Twin Vertical

Vanguard 13

Vanguard 23

- Advanced tri-metalic catalysts technology
- Designed to operate on Briggs & Stratton gasoline and gaseous (LPG & CNG) fueled small engines
- The BlueCAT™ SSI is compatible with an A/F controller (optional) to maximize the emission reduction in gaseous fueled engines
- Custom designs available upon request
- The BlueCAT™ SSI catalytic mufflers match or surpass the noise attenuation performance of original Briggs & Stratton small engine mufflers
- Made of heavy aluminized steel to increase the typical life expectancy of its original replacement
EMISSIONS REDUCTION PERFORMANCE

Typical BlueCAT™ SSI Emissions Reduction Performance for Briggs & Stratton Small Engines

≤98% reduction
Carbon Monoxide (CO)

≤95% reduction
Hydrocarbons (HC)

≤95% reduction
Nitrogen Oxides (NOx)
