

Hospital Grade Disc Silencers

NTHO-D 35-40 dBA

Specification

Nett Technologies Inc., utilizes the latest technologies and methodologies to design and manufacture its stationary engine exhaust silencers and components.

- All welded steel construction
- Quality design and manufacture
- ANSI plate flange connections
- High temperature paint primer

Performance

Nett Technologies' Hospital Grade Disc Silencers are designed to achieve maximum performance with the least amount of backpressure. The silencers are Reactive Silencers and are typically used for reciprocating or positive displacement engines in an enclosure where noise level regulations are high.

Typical Configurations

Silencer Selection

Please contact Nett Technologies' sales staff for:

- Silencer application options
- Exhaust calculations
- Engine accessories
- Mounting support options
- Flush mount/brackets/lifting lugs
- Stainless steel material options
- Custom requests
